

1. Correction.

AGCC wishes to correct and clarify an erroneous statement contained in the Commission tribunal's published determination notice of the hearing into Full Tilt, which includes the statement:- "the individual seizures made by the Department of Justice during the period 28th June 2007 to 20th June 2011, which amount to a cumulative total of approximately \$331 million US Dollars." The underlying evidence in the hearing clearly demonstrated that \$331 million was the total of funds unavailable to Full Tilt, of which DOJ seizures formed only a part. The mis-statement is thus not of significance in the Commission's assessment of the matter.

2. On-going concerns of Full Tilt's registered players.

At the request of the police, AGCC will continue to log incoming player complaints: these records will be made available to the police. However, following the revocation of the licences, AGCC no longer has authority to intermediate or arbitrate on player issues or disputes with Full Tilt (except for players registered under a Swiss address).

Players may have the following alternative options:-

1. Full Tilt has been requested to provide a specific player contact: this is awaited and will be incorporated here upon receipt.
2. Any player who believes they are a victim of crime, as a result of their dealings with Full Tilt, should in the first instance contact their own local police in their country of residence and report the matter to them. These reports will then be co-ordinated centrally.
3. It is understood that a number of civil actions have been initiated by players against Full Tilt, some as class actions representing multiple players by UK, US and Canadian lawyers. Details of the firms concerned can be found through internet search.
