

Belgian-resident players

Alderney Gambling Control Commission has been advised by the Belgian Gaming Commission that, in their belief, the provision of online gambling services to people in Belgium without authorisation or licence issued by the Belgian Gaming Commission is illegal and an offence under Belgian Law. The letter also points out that the relevant age to access gambling in Belgium is 21 not 18.

AGCC reminds Category 1 eGambling licensees of their obligations under Regulation 4(f) (of the Alderney eGambling Regulations, 2009) of the need to remain informed on the legality of their operations in foreign territories. If a Category 1 eGambling licensee is in any doubt as to the legality of its operations it should take appropriate legal advice.
